Software Engineering Instructor with 3+ years of engineering experience and 2+ years of teaching and mentorship. Experienced in guiding students in JavaScript, React, Node.js, Python, and Computer Science fundamentals. Passionate about breaking down complex concepts, fostering inclusive learning, and helping learners build career-ready skills.

EXPERIENCE

Software Engineering Tutor   **July 2024 - August 2025**
TripleTen, United States (Remote).
- Mentored 500+ students in front-end and back-end development (JavaScript, React, Node.js, Express).
- Guided students through debugging and iterative project reviews, leading to high project completion rates.
- Delivered constructive, empathetic feedback to build student confidence and resilience.
- Cultivated an inclusive learning environment that encouraged open communication and collaboration.

Software Engineering Teaching Assistant   **July 2023 - June 2024**
Kibo School, New York, United States (Remote).
- Supported instruction in Data Structures, Algorithms, and Python programming.
- Guided students in mastering both Python fundamentals and advanced concepts.
- Assisted lead instructor with office hours, project support, and curriculum delivery.
- Contributed to student success by providing one-on-one mentorship and feedback.
- Created a TA playbook for other junior teaching assistants.

GDSC Lead - Kibo Chapter   **July 2023 - July 2024**
Google, New York, United States (Remote).
    As the GDSC Lead, I lead a dynamic team in fostering a collaborative environment for students interested in technology. I
- Organized 10+ workshops and events, engaging 100+ students in hands-on learning.
- Built a collaborative platform for students to explore innovative projects and sharpen technical skills.
- I partnered with industry professionals to expand networking and mentorship opportunities.
- Tutored students on web development and Progressive Web Apps (PWA), leading the team to build Applimate

Software Engineer Intern - FreeCodeCamp Classroom Project   **Jun 2023 - Aug 2023**
CodeDay, Seattle, Washington (Remote).
- Contributed as a Software Engineering Intern to improve security and reliability of a classroom project codebase.
- Implemented Jest snapshot tests, strengthening stability and reducing regression errors.
- Supported the development team by maintaining and enhancing overall code quality.

EDUCATION

Kibo School of Technology   **Oct 2022 - May 2024**
Higher Diploma in Computer Science   New York, NY

ADDITIONAL

Technical Skills: Python, HTML, CSS, JavaScript, React, NodeJs, Express
Non Technical Skills: Critical thinking, leadership, problem-solving
Tools: VSCode, Figma, Sublime, PyCharm, Git/Github/Gitlab, Notion
Certifications and Training: Codeday Lab Participation Certificate, The Complete Javascript Course 2023: from Zero to Expert (Udemy), Build Responsive Real-World Websites with HTML and CSS (Udemy)
Interests: Developer Experience, Teaching, Football, Gaming, Cooking
